System Requirements

Flipster has been tested and confirmed to work on your desktop computer with the following browsers:

Internet Explorer	8+
FireFox	28+
Safari	5.1+
Google Chrome	33+
Other	JavaScript, Cookies Enabled

Notes:

- If you are using an older browser, Flipster may function properly, but your results may vary.
- The recommended screen resolution is 1024 x 768.
- Internet Explorer 8 users should turn off **Compatibility View** by clicking the button next to the web address bar in their browser. Compatibility View may cause some areas of EBSCO interfaces to not display correctly.
- Adobe Flash Player 10.0 or later is required to use Text-To-Speech on interfaces in which it is available.

Mobile Requirements

While Flipster should be accessible using most mobile operating systems, the following operating systems have been tested and confirmed to be supported by Flipster:

- **iOS** - Versions 5 and higher
- **Android** - Latest Version

If you are using a different mobile operating system, your Flipster experience may vary.
